

PRODUCT PROFILE: PHYTOPOWER E

TARGETED PROBIOTIC ENERGY FORMULA.

The center of energy production is the gut microbiome. A diverse biotic community in the gut creates the perfect environment for creating and harvesting energy. PhytoPower E is an energy creation and harvesting formula.

PhytoPower E deploys 15 billion CFUs of targeted probiotics in three specific strains—Lactobacillus Plantarum, Lactobacillus Rhamnosus, and Bifidobacterium Infantis—to facilitate efficient and sustainable energy harvesting and production in the body.

Daily consumption of PhytoPower E will ensure your body has everything it needs for optimal energy production and harvesting.*

HOW IT WORKS

PhytoPower E is a healthy, natural way to help stimulate your body and promote healthy energy harvesting. PhytoPower E is powered by targeted probiotics and natural ingredients that promote the creation of energy.

PhytoPower E features three different strains of targeted probiotics, specifically chosen for their ability to influence the body's natural energy harvesting processes. These unique targeted bacterial strains diversify the gut microbiome with friendly bacteria to help facilitate the energy production process in the body. The gut microbiome has a profound influence on energy metabolism (energy harvesting), and PhytoPower E's targeted probiotics ensure that microbiome is in excellent working order.

PhytoPower E also provides a spark of energy from nature's best energy-packed ingredients. With vitamin B, guarana, taurine, ginseng, and spirulina, PhytoPower E boosts energy naturally and safely.

HOW TO USE

PhytoPower E is portioned into individual-serving stick packs, which makes consumption easy and convenient. Simply add a stick pack to 16 ounces of water or another favorite beverage. Mix thoroughly and enjoy.

PhytoPower E is meant to be consumed when you need energy, so drink it in the afternoons, before exercise, in the morning, or whenever you feel like your body needs a boost.

With a natural strawberry kiwi lemonade flavor, PhytoPower E is both potent and delicious.

WHAT YOU CAN EXPECT

Daily consumption of PhytoPower E will ensure your body has everything it needs for optimal energy production and harvesting. Here are the kinds of benefits you can expect from PhytoPower E:*

EFFICIENT ENERGY HARVESTING

DIVERSITY IN THE GUT MICROBIOME

BETTER NUTRIENT ABSORPTION

NATURAL ENERGY FROM PROVEN INGREDIENTS

INCREASED OXYGEN UPTAKE

INCREASED TIME TO FATIGUE

YOU'LL LOVE THIS

PhytoPower E features a custom botanical energy blend which includes guarana and panax ginseng. Each serving of PhytoPower E contains 75mg of natural caffeine, which will stimulate the brain and the body.

*These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

FEEL THE ENERGY

PhytoPower E not only gives you energy, but it actually improves the energy harvesting process in the body. And it's all thanks to PhytoPower E's impressive impact ingredients.

TARGETED PROBIOTICS:

Three strains of targeted probiotics—lactobacillus plantarum, lactobacillus rhamnosus, and Bifidobacterium infantis—were specifically chosen for PhytoPower E because they contain friendly bacteria shown to improve the energy harvesting process in the gut.

TAURINE

Maintains proper hydration and electrolyte balance in the body's cells. Also reduces muscle damage during exercise, and improves recovery times.

SPIRULINA

Contains critical amino acids, omega 369, essential fatty acids, vitamins, and protein. One of the most nutrient-dense foods on the planet.

VITAMIN B12

Critical component in energy production and metabolism.

GUARANA

Excellent source of natural caffeine and antioxidants. Guarana is known to reduce fatigue and improve focus.

PANAX GINSENG

Has been shown to ease fatigue and increase energy levels by lowering oxidative damage and increasing energy production in the cells.

FAQs

Q: What is the key difference between PhytoPower E and other energy supplement products?

A: LoveBiome recognizes that the center of energy production is the gut microbiome. PhytoPower E is designed to populate the microbiome with key targeted bacterial strains that have powerful influence in energy production and harvesting in the microbiome, and powerful complimentary impact ingredients that deliver energy and help the body sustain higher energy levels.

Q: What's the difference between probiotics and targeted probiotics?

A: Probiotics is a term to describe all beneficial bacteria. There are thousands of strains of beneficial bacteria (that we know of), and the word "probiotics" can be used to describe them all.

Targeted probiotics, on the other hand, is a term used to describe specific strains within the probiotic community. These targeted probiotic strains have unique chemical characteristics that help them zero in on distinct functions and systems in the body. By diversifying the gut with targeted probiotics, you can influence the health of your body in specific ways.

Q: Are there targeted probiotics in PhytoPower E?

A: Yes. PhytoPower E contains targeted probiotics in three different strains: lactobacillus plantarum, lactobacillus rhamnosus, and Bifidobacterium infantis. These targeted probiotics were chosen for their ability to help the gut microbiome increase the body's ability to produce and harvest energy.

Q: Does PhytoPower E contain any artificial stimulants?

A: No. PhytoPower E uses the power of nature to help the body produce and harvest energy naturally. The impact ingredients in PhytoPower E include things like taurine, spirulina, vitamin B, ginseng, and guarana.

Q: Does PhytoPower E contain caffeine?

A: Yes, PhytoPower E contains 75mg of natural caffeine from guarana.

Q: Will PhytoPower E make me jittery?

A: PhytoPower E was designed to help the body produce and harvest energy in a natural, healthy way. It was not made with artificial "crash-and-burn" stimulants, nor does it contain massive amounts of caffeine. Results will certainly vary, but PhytoPower E was not designed to over-stimulate the body.

FAQs

Q: How do I consume PhytoPower E?

A: Simply mix PhytoPower E with 16 ounces (480 ml) of water or your favorite cold beverage. PhytoPower E features a delicious natural strawberry-kiwi lemonade flavor, so it doesn't need a lot of extra flavoring.

Q: Does PhytoPower E have artificial sweeteners, flavors, or colors?

A: No, PhytoPower E does not contain any artificial sweeteners, flavors, or colors.

Q: Does PhytoPower E have any soy, estrogen, or gluten?

A: PhytoPower E contains no soy or estrogen products, and it is gluten free.

Q: When should I drink PhytoPower E?

A: We recommend drinking PhytoPower E daily, in a well-rounded program to support your lifestyle.

Q: Can you mix different PhytoPower products together?

A: Yes. when mixed according to instructions, all PhytoPower products may be consumed simultaneously.

Q: Can you mix PhytoPower E with PhytoPower or Next beverages?

A: We recommend drinking PhytoPower E with at least 16 ounces of liquid, and that can certainly include Next beverages. And PhytoPower E can be mixed with PhytoPower in the same beverage.

Q: Is PhytoPower E safe for kids, expectant mothers, or breastfeeding mothers?

A: PhytoPower E was designed to be safe for people of all ages, but if there's ever a question, please consult a physician.

PHYTOPOWER BRAND MESSAGE

LoveBiome's passion originates from a simple statement: Change One Thing, and Change Everything. We believe that when you take care of your microbiome, your microbiome will take care of you.

The PhytoPower Brand represents the most robust and imaginative innovations in microbiome health.

Our passion is to help everyone discover the life-changing benefits of a thriving, flourishing, healthy biotic community. Within this community are diverse strains of friendly, beneficial bacteria, nourished by the best prebiotics, which in turn fuels the production of powerful postbiotics that energize every cell, system, and function of the body.

DOMINATING THE ERA OF THE MICROBIOME
